Thank you for helping make World Pancreatic Cancer Day a powerful symbol for the cause we all believe in.

These logo and branding elements have been created to strengthen visibility, create an emotional attachment and unite communities around the world fighting for a better future.

Please follow this guide as you develop materials on behalf of World Pancreatic Cancer Day and keep our visual presence consistent and strong.
The stacked logo is the preferred logo for all WPCD materials.

The horizontal logo was created for use in wider spaces.

Versions of the logo with the date were created for use on digital deliverables and places where it’s important to highlight the date of the event, like web homepages and social graphics. You should avoid using the dated version of the logo on printed deliverables that are used year-over-year.
Maintain a clear space around the entire logo equal to the square portion of the kite.

It is important that the minimum logo sizes are observed to protect readability, and that the logo always has a comfortable amount of space around it.

 Minimum stacked logo size: 1" x .7"

 Minimum horizontal logo size: 2.5" x .8"
At times it may be necessary to place the preferred logo next to another logo. The following are examples of how this should be handled:

To remain a consistent brand icon, the WPCD logo must never be altered in any fashion. Some examples of what is not allowed:

- Never compress the logo horizontally
- Never compress the logo vertically
- Never change the orientation of the logo
- Never add lighting effects to the logo
- Never change the logotype
- Never crop the logo
The preferred logo cannot be placed too close to other objects. Use the logotype instead in compact spaces:
